## **Cambustion Products Coronavirus (COVID-19) update 30<sup>th</sup> March, 2020**

Cambustion continue to monitor and comply with UK Government instructions for both individuals and businesses in the light of the global coronavirus situation.

We continue to accept service work which can be performed at Cambustion. Contact [support@cambustion.com](mailto:support@cambustion.com) if you would like to arrange servicing of your equipment.

Our priority at this time is to protect colleagues while continuing work to the greatest extent safely possible.

---

The [UK Government's updated instructions](#) released on 23<sup>rd</sup> March make it clear that, when work absolutely can not be done from home, travel to work is still appropriate.

Our administration teams are already working from home to the greatest extent possible; colleagues who can not work from home remain in the office with enhanced separation and other measures.

If you have specific concerns, please ask your normal Cambustion contact for detailed information, and refer to <https://www.cambustion.com/products/coronavirus> for updates.
